

31 August 2021

Dear Parent/ Guardian,

**REMINDER FOR COVID-19 VACCINATION**

1. Eight in 10 people in Singapore have been vaccinated against COVID-19. Both local and international data showed that when an unvaccinated individual catches the virus, he has a high risk of falling very ill. Vaccination is still the best protection.
2. Getting vaccinated is convenient and free for now. Your child/ ward can walk in to any Vaccination Centre, polyclinic or participating PHPC to get their first dose without need for an appointment. Their locations can be found at [vaccine.gov.sg](https://vaccine.gov.sg). Do note that parental consent is required for students below the age of 18 and the consent form can be downloaded at [go.gov.sg/parcf](https://go.gov.sg/parcf). If you require further assistance, please call the MOH COVID-19 Vaccination Call Centre at **1800-333-9999**.
3. Thank you for doing your part in building a Covid-19 resilient society and a safer environment for your family.

Yours faithfully  
Emil Dereinda  
Principal
